## FRESH FROM THE FARM

Our "ABCDD Cereal" accredited wheat comes directly from Florin's farm in the beautiful village of Enisala, located in Tulcea County, Romania.

Florin only employs organically approved farming methods, avoiding pesticides, harmful chemicals, and GMOs, and is certified by the Organic Certifying Body "Bio Cert" You can find his ABCDD Cereal's Master Organic Certification by clicking the button below.

## TESTING TIME

Before embarking on its journey to London, this wheat was sampled by a third party independent surveyor and tested again to make sure it is free of pesticides, fungicides, herbicides, mycotoxins, GMOs, and other harmful chemicals. You can find the Test Report for this Lot of wheat by clicking the button below.

## ALL ABOARD!

Once we are ready to have the wheat shipped to our mill, it is packaged in clean containers, and assigned an ASSAY certificate as proof of its purity and authenticity you can view it by clicking the button below. The wheat is then assigned a travel document called "BOL" or "CMR" (you can view it by clicking the button below) reporting the Lot No. which appears at the bottom of your flour bag.

## DOING IT THE ORGANIC WAY

Once the wheat has reached our London mill, we safely store it in a clean and dry environment, free of any chemicals or substances that could harm its natural goodness. Our warehouse and equipment are all Organic-Certified by the Organic Food Federation. You can view our Master Organic Certificate by clicking the button below, which shows the full list of products we can process under our Organic label.

## QUALITY IS EVERYTHING

The last stage of the milling process is, you guessed it, more testing! We are committed to delivering you not only the best and safest Organic ingredients, but also the most nutritionally complete too! Therefore, we go through an additional series of tests to check that our Organic flour always contains the right specifications and nutritional values. You can find the Analyses Report for this Lot of wheat by clicking the button below, which you can compare to the average values in the nutritional table on the side of your bag.
